Emily Ocher's Circular Cast on

1. Make a ring. Do not pull it tight; keep it loose. Grasp the loop where the strands meet with your left thumb and index finger. You can make the loop with the tail going up. You will then have to weave in the tail.
2. Insert the hook into the loop from front to back. Grab the yarn with the hook (yo) and bring through the loop. You now have one loop on the hook.
3. Insert the hook into the loop again; you will be going under the yarn tail as well. Hook the yarn (yo) and bring through the loop. Hook the yarn again and bring through the loop on the hook as if you were making a chain. You now have two loops on the hook. Repeat this step until you have the required number of loops.
4. Carefully replace the hook with your needles and begin knitting in the round. After you have finished a few rounds, pull the tail to close up the circle. You now have a nice, tight circle with no hole in the middle.
